New Features

The following features have been added in this release of TIBCO BusinessConnect™ Container Edition.

Supports OpenID Connect (OIDC) Server

TIBCO BusinessConnect™ Container Edition now supports OIDC server user authentication source type for internal users.

Single Sign-on (SSO) Authentication

TIBCO BusinessConnect™ Container Edition now supports login using Single Sign-on (SSO) authentication.

Resend Transactions

TIBCO BusinessConnect™ Container Edition now supports resend feature. You can now resend transactions in specific states. You can access this feature for all transactions on the **Audit Trail** tab.

For this release, resend feature is only supported for EZComm, RosettaNet, and X12 protocols.

Automatize Export and Import

TIBCO BusinessConnect™ Container Edition supports import and export automation of TIBCO BusinessConnect™ Container Edition configuration including gateway configuration export.

Credential Expiry Alserter

TIBCO BusinessConnect™ Container Edition now supports credential expiry alserter. This notifies about the certificates that are about to expire and that are already expired.

User Access Audit Trail

TIBCO BusinessConnect™ Container Edition supports user access audit trail. This provides an audit trail of all the activities that users perform on trading partners, business agreements, and operations.

Secure HTTP

TIBCO BusinessConnect™ Container Edition supports secure HTTP for encryption in secure communication.

Changes in Functionality

No functionality changes have been made in this release of TIBCO BusinessConnect™ Container Edition.

Deprecated Features

No features have been deprecated in this release of TIBCO BusinessConnect™ Container Edition.

Removed Features

No features have been removed in this release of TIBCO BusinessConnect™ Container Edition.

Migration and Compatibility

To migrate from TIBCO BusinessConnect™ 6.4.x or 7.x or TIBCO BusinessConnect™ Container Edition 1.x.x to TIBCO BusinessConnect™ Container Edition 1.4.0, see the *"BusinessConnect Container Edition Migration" section in the TIBCO BusinessConnect™ Container Edition Installation and Deployment guide.*

Closed Issues

No issues have been fixed in this release of TIBCO BusinessConnect™ Container Edition.

Known Issues

The following issues exist in this release of TIBCO BusinessConnect™ Container Edition.

Key	Summary and Workaround
BCCE-3737	Summary: When you delete an operation on the Operations Editor tab, the delete record is not found in audit trail. Workaround: None.
BCCE-3725	Summary: Resend of files exceeding 19MB threshold fails when using the outbound file poller. Workaround: None.
BCCE-3715	Summary: The LDAP or SSO configuration cannot be exported. Workaround: None.
BCCE-3480	Summary: When you initiate an HTTPS transaction by enabling PGP encryption, null pointer exception is displayed in the interior server logs. Workaround: None.
BCCE-3412	Summary: When you configure FTP/FTPS/SFTP settings on the poller server and wait for the poller server to start FTP pollers, the "FTP destination URL is empty" error message is displayed. Workaround: None.

TIBCO Documentation and Support Services

For information about this product, you can read the documentation, contact TIBCO Support, and join TIBCO Community.

How to Access TIBCO Documentation

Documentation for TIBCO products is available on the [Product Documentation website](#), mainly in HTML and PDF formats.

The [Product Documentation website](#) is updated frequently and is more current than any other documentation included with the product.

Product-Specific Documentation

The documentation for TIBCO BusinessConnect™ Container Edition is available on the [TIBCO BusinessConnect™ Container Edition](#) page.

How to Contact Support for TIBCO Products

You can contact the Support team in the following ways:

- To access the Support Knowledge Base and getting personalized content about products you are interested in, visit our [product Support website](#).
- To create a Support case, you must have a valid maintenance or support contract with a Cloud Software Group entity. You also need a username and password to log in to the [product Support website](#). If you do not have a username, you can request one by clicking **Register** on the website.

How to Join TIBCO Community

TIBCO Community is the official channel for TIBCO customers, partners, and employee subject matter experts to share and access their collective experience. TIBCO Community offers access to Q&A forums, product wikis, and best practices. It also offers access to extensions, adapters, solution accelerators, and tools that extend and enable customers to gain full value from TIBCO products. In addition, users can submit and vote on feature

requests from within the [TIBCO Ideas Portal](#). For a free registration, go to [TIBCO Community](#).
