## Related Documentation

---

This section lists documentation resources you may find useful.

### TIBCO Designer Add-in for TIBCO Business Studio Documentation

The following documents form the TIBCO Designer Add-in for TIBCO Business Studio documentation set:

- *TIBCO Designer Add-in for TIBCO Business Studio Installation* Read this manual for information on installing TIBCO Designer Add-in for TIBCO Business Studio on supported platforms.
- *TIBCO Designer Add-in for TIBCO Business Studio User's Guide* Read this manual for using the TIBCO Designer Add-in for TIBCO Business Studio interface.
- *TIBCO Designer Add-in for TIBCO Business Studio Release Notes* Read the release notes for a list of new and changed features. This document also contains lists of known issues and closed issues for this release.

### Other TIBCO Product Documentation

You may find it useful to read the documentation for the following TIBCO products:

- TIBCO Designer™
- TIBCO ActiveMatrix BusinessWorks™
- TIBCO ActiveMatrix BusinessWorks™ Service Engine

## Typographical Conventions

The following typographical conventions are used in this manual.

Table 1 General Typographical Conventions

Convention	Use
	<p>TIBCO products are installed into an installation environment. A product installed into an installation environment does not access components in other installation environments. Incompatible products and multiple instances of the same product must be installed into different installation environments.</p> <p>An installation environment consists of the following properties:</p>
<i>ENV_NAME</i>	<ul style="list-style-type: none"> <li>• <b>Name</b> Identifies the installation environment. This name is referenced in documentation as <i>ENV_NAME</i>. On Microsoft Windows, the name is appended to the name of Windows services created by the installer and is a component of the path to the product shortcut in the Windows Start &gt; All Programs menu.</li> </ul>
<i>TIBCO_HOME</i>	<ul style="list-style-type: none"> <li>• <b>Path</b> The folder into which the product is installed. This folder is referenced in documentation as <i>TIBCO_HOME</i>. The value of <i>TIBCO_HOME</i> depends on the operating system. For example, on Windows systems, the default value is <code>C:\tibco</code>.</li> </ul>
<i>DABS_HOME</i>	<p>TIBCO Designer Add-in for TIBCO Business Studio installs into a directory within <i>TIBCO_HOME</i>. This directory is referenced in documentation as <i>DABS_HOME</i>. The value of <i>DABS_HOME</i> depends on the operating system. For example on Windows systems, the default value is <code>C:\tibco\dabs\1.5</code>.</p>
code font	<p>Code font identifies commands, code examples, filenames, pathnames, and output displayed in a command window. For example:</p> <p>Use <code>MyCommand</code> to start the foo process.</p>
<b>bold code font</b>	<p>Bold code font is used in the following ways:</p> <ul style="list-style-type: none"> <li>• In procedures, to indicate what a user types. For example: Type <b>admin</b>.</li> <li>• In large code samples, to indicate the parts of the sample that are of particular interest.</li> <li>• In command syntax, to indicate the default parameter for a command. For example, if no parameter is specified, <code>MyCommand</code> is enabled: <code>MyCommand [enable   disable]</code></li> </ul>

Table 1 General Typographical Conventions (Cont'd)

Convention	Use
<i>italic font</i>	<p>Italic font is used in the following ways:</p> <ul style="list-style-type: none"><li>• To indicate a document title. For example: See <i>TIBCO ActiveMatrix BusinessWorks Concepts</i>.</li><li>• To introduce new terms For example: A portal page may contain several <i>portlets</i>. Portlets are mini-applications that run in a portal.</li><li>• To indicate a variable in a command or code syntax that you must replace. For example: <i>MyCommand pathname</i></li></ul>
Key combinations	<p>Key name separated by a plus sign indicate keys pressed simultaneously. For example: Ctrl+C.</p> <p>Key names separated by a comma and space indicate keys pressed one after the other. For example: Esc, Ctrl+Q.</p>
	<p>The note icon indicates information that is of special interest or importance, for example, an additional action required only in certain circumstances.</p>
	<p>The tip icon indicates an idea that could be useful, for example, a way to apply the information provided in the current section to achieve a specific result.</p>
	<p>The warning icon indicates the potential for a damaging situation, for example, data loss or corruption if certain steps are taken or not taken.</p>

## Connecting with TIBCO Resources

---

### How to Join TIBCOCommunity

TIBCOCommunity is an online destination for TIBCO customers, partners, and resident experts. It is a place to share and access the collective experience of the TIBCO community. TIBCOCommunity offers forums, blogs, and access to a variety of resources. To register, go to <http://www.tibcommunity.com>.

### How to Access TIBCO Documentation

You can access TIBCO documentation here:

<http://docs.tibco.com>

### How to Contact TIBCO Support

For comments or problems with this manual or the software it addresses, contact TIBCO Support as follows:

- For an overview of TIBCO Support, and information about getting started with TIBCO Support, visit this site:

<http://www.tibco.com/services/support>

- If you already have a valid maintenance or support contract, visit this site:

<https://support.tibco.com>

Entry to this site requires a user name and password. If you do not have a user name, you can request for one.

# Release Notes

Check the TIBCO Product Support web site at <https://support.tibco.com> for product information that was not available at release time. Entry to this site requires a username and password. If you do not have a username, you can request one. You must have a valid maintenance or support contract to use this site.

## Topics

- [New Features, page 2](#)
- [Changes in Functionality, page 5](#)
- [Deprecated and Removed Features, page 8](#)
- [Migration and Compatibility, page 10](#)
- [Closed Issues, page 12](#)
- [Known Issues, page 18](#)

## New Features

---

This section lists features added since the last major (1.0) release of this product.

### Release 1.5.0

The following are new features in this release.

- This release supports TIBCO Business Studio 3.6.0 and TIBCO Runtime Agent 5.8.0.

### Release 1.4.0

The following are new features in this release.

- The Installation related information has been removed from *TIBCO Designer Add-in for TIBCO Business Studio User's Guide*. It is now available in the Installation guide. For details on product installation, refer to *TIBCO Designer Add-in for TIBCO Business Studio Installation*.
- This release supports TIBCO Runtime Agent 5.7.4.

#### Platform Support

TIBCO Designer Add-in for TIBCO Business Studio is supported on the following 32-bit and 64-bit Windows platforms.

- Windows Server 2008 R2
- Windows Server 2008 SP2
- Windows Server 2003 SP2
- Windows 7 (Professional is the minimum level supported by TIBCO)
- Windows XP Professional SP3

### Release 1.3.2

There are no new features in this release.

### Release 1.3.1

The following are new features in this release.

- This release supports TIBCO Business Studio 3.5 and TIBCO Runtime Agent 5.7.1.

## Release 1.3

The following are new features in this release.

- This functionality allows you to copy an existing TIBCO Designer project into the workspace while converting it into a TIBCO Designer Add-in for TIBCO Business Studio Project. This allows you to work on a copy of the project imported in the workspace. For details, refer to *TIBCO Designer Add-in for TIBCO Business Studio User's Guide*.
- This release supports TIBCO Runtime Agent 5.7.0.

## Release 1.2

The following are new features in this release.

- DABS Synchronize button has been introduced in the toolbar. For details, refer to *TIBCO Designer Add-in for TIBCO Business Studio User's Guide*.
- Two new tools have been introduced:
  - generateManifest
  - enableTargetEclipse
- Any changes to `designer.tra`, as a result of installation of new products/plugin-ins on TIBCO Designer or project specific requirements, will need to be explicitly propagated to TIBCO Designer Add-in for TIBCO Business Studio by running the newly introduced **generateManifest** Tool. For details, refer to *TIBCO Designer Add-in for TIBCO Business Studio User's Guide*.

## Release 1.1.1

The following are new features in this release.

- This release supports TIBCO Business Studio 3.2.

## Release 1.1

The following are new features in this release.

- This release supports TIBCO Business Studio 3.1.

## Release 1.0

The following are new features in this release.

- The TIBCO Designer design-time environment is available via TIBCO Business Studio. Refer to *TIBCO Designer Add-in for TIBCO Business Studio User's Guide* for more information.

## Changes in Functionality

---

This section lists changes in functionality since the last major (1.0.0) release of this product.

### Release 1.5.0

#### **TIBCO ActiveMatrix BusinessWorks Service Engine 5.11.0 Support**

TIBCO ActiveMatrix BusinessWorks Service Engine 5.11.0 and above is supported by TIBCO Designer Add-in for TIBCO Business Studio.

### Release 1.4

#### **TIBCO ActiveMatrix BusinessWorks Service Engine 5.10.0 Support**

TIBCO ActiveMatrix BusinessWorks Service Engine 5.10.0 and above is supported by TIBCO Designer Add-in for TIBCO Business Studio.

### Release 1.3.2

The following are changes in functionality in this release.

#### **Full Installer**

TIBCO Designer Add-in for TIBCO Business Studio 1.3.2 is a full installer and does not need a prior installation of 1.3.0 or 1.3.1 version.

### Release 1.3.1

The following are changes in functionality in this release.

#### **Full Installer**

- TIBCO Designer Add-in for TIBCO Business Studio 1.3.1 is a full installer and does not need to be installed over 1.3.0 version.

#### **Accessing Third Party Jars in TIBCO Designer Add-in for TIBCO Business Studio**

To access third party jars in TIBCO Designer Add-in for TIBCO Business Studio:

1. Stop TIBCO Business Studio.
2. Update the `designer.tra` with absolute path on disk of the folder containing the jars.
3. Run `generateManifest` tool. (For details about running this tool, refer to *TIBCO Designer Add-in for TIBCO Business Studio User's Guide*)
4. Start TIBCO Business Studio with `-clean` option.

## TIBCO ActiveMatrix BusinessWorks Service Engine 5.9.2 Support

TIBCO ActiveMatrix BusinessWorks Service Engine 5.9.2 and above is supported by TIBCO Designer Add-in for TIBCO Business Studio.

## Release 1.3

The following are changes in functionality in this release.

- TIBCO ActiveMatrix BusinessWorks Service Engine 5.9.0 and above is supported by TIBCO Designer Add-in for TIBCO Business Studio.

## Release 1.2

The following are changes in functionality in this release.

- TIBCO Designer Add-in for TIBCO Business Studio is also bundled in the TIBCO ActiveMatrix BusinessWorks Service Engine installer.
- Multiple versions of TIBCO Designer Add-in for TIBCO Business Studio on the same machine and different *TIBCO\_HOMEs* are now supported.
- Auto-save and Auto-refresh are now disabled by default.

## Release 1.1.1

There are no changes in functionality.

## Release 1.1

The following are changes in functionality in this release.

- **TIBCO Business Studio 2.2 not bundled with the product** TIBCO Business Studio 2.2 is no longer bundled with the product. You need to install TIBCO Business Studio before installing TIBCO Designer Add-in for TIBCO Business Studio.

## Release 1.0

There are no changes in functionality.

## Deprecated and Removed Features

---

This section describes deprecated features (if any), and lists features, if relevant, that may be useful alternatives to the deprecated features. Any use of a deprecated feature should be discontinued as it may be removed in a future release. You should avoid becoming dependent on deprecated features and become familiar with the suggested alternative features.

This section also lists features that are removed (if any).

### Release 1.5.0

#### Deprecated Features

No features are deprecated in this release.

#### Removed Features

No features are removed in this release.

### Release 1.4.0

#### Deprecated Features

No features are deprecated in this release.

#### Removed Features

No features are removed in this release.

### Release 1.3.2

#### Deprecated Features

No features are deprecated in this release.

#### Removed Features

No features are removed in this release.

### **Release 1.3.1**

No features are deprecated in this release.

### **Release 1.3**

No features are deprecated in this release.

### **Release 1.2**

The following features are deprecated in this release:

- The Multi-User menu items are deprecated.
- Separate views for Configuration and Editor Panel have been deprecated and a single DABS Main View has been created.

### **Release 1.1.1**

No features are deprecated in this release.

### **Release 1.1**

No features are deprecated in this release.

### **Release 1.0**

No features are deprecated in this release.

## Migration and Compatibility

---

This section explains how to migrate from a previous release to this release.

### Release 1.5.0

There are no migration procedures or compatibility issues in this release.

### Release 1.4.0

There are no migration procedures or compatibility issues in this release.

### Release 1.3.2

There are no migration procedures or compatibility issues in this release.

### Release 1.3.1

There are no migration procedures or compatibility issues in this release.

### Release 1.3

There are no migration procedures or compatibility issues in this release.

### Release 1.2

There are no migration procedures or compatibility issues in this release.

### Release 1.1.1

There are no migration procedures or compatibility issues in this release.

### Release 1.1

There are no migration procedures or compatibility issues in this release.

## Release 1.0

All projects created by TIBCO Designer can be imported into TIBCO Business Studio using the **New > TIBCO Designer Project** wizard. For more information refer to the *TIBCO Designer Add-in for TIBCO Business Studio User's Guide*.

## Closed Issues

The table in this section list issues that were closed in the named releases.

Closed in Release	Change Request ID	Summary
1.4.0	DABS-608	TIBCO Business Studio suspended when opening a TIBCO Designer Add-in for TIBCO Business Studio project.
1.3.2	DABS-778	An integrated support was required for Serena Dimensions CM 10.1.3.3 RCS functionality into TIBCO Designer Add-in for TIBCO Business Studio 1.3.1. This support has now been provided.
1.3.2	DABS-781	After making a change in the TIBCO Designer project when an attempt was made to close the TIBCO Business Studio without saving the project using random steps, the TIBCO Business Studio did not exit.
1.3.2	DABS-852	When a project with schema mappings in the Input or Output tab of the activity was re-opened, TIBCO Business Studio hung.
1.3.1	1-AHKQJM DABS-586	When using <b>Import &gt; Existing projects into workspace</b> with <b>Copy into workspace</b> option enabled, occasionally Global Variables were not displayed.
1.3.0	1-A2PP45 DABS-476	If TIBCO Business Studio version 2.2 is installed standalone, any subsequent installation and uninstallation of products installed based on this Business Studio results in corruption of the Business Studio installation. This issue is not encountered now since Business Studio 2.2 is not supported by TIBCO Designer Add-in for TIBCO Business Studio 1.3.0 onwards.
1.3.0	1-AJ4QJ8 DABS-595	When trying to run processes on a TIBCO Runtime Agent 5.6.2 + TIBCO Designer Add-in for TIBCO Business Studio installation, <code>TibrvException[error=4,message=Tibrv not initialized]</code> is encountered. This required user to manually upgrade the entries for TIB RV locations across all products in the TIBCO-HOME by using <code>traUpgradeManager</code> . This issue is now resolved and such manual upgrade is not required now.
1.3.0	1-956DG7 DABS-146	If you had a TIBCO Designer project that contained R3 Adapters and the R3 Adapters were started using <b>Window &gt; Show View &gt; Tester View</b> , TIBCO Business Studio stopped responding.

Closed in Release	Change Request ID	Summary
1.2.0	1-92H9J2 DABS-85	On resources in the Project explorer view for TIBCO Designer projects, right-click options: Cut, Copy, Paste, and Delete were sometimes disabled.
1.2.0	1-93IV4V DABS-105	TIBCO Business Studio shut down when clicking <b>File &gt; Switch Workspace</b> and specifying a new workspace.
1.2.0	1-94RGUQ DABS-137	When adding an adapter configuration resource to the DABS Main View, a delay was experienced before the adapter resource was created. Delays were not seen when additional adapter resources were added to the same project.
1.2.0	1-94WW9V DABS-141	When specifying a value for a global variable that had an invalid name, the Global Variable dialog box would exit after displaying an error message.
1.2.0	1-92674G DABS-49	On clicking the <b>TIBCO Designer &gt; View &gt; Details</b> option, the DABS Main View froze until the Details option was de-selected.
1.2.0	1-9ORLWX DABS-403	In the DABS Main View of the TIBCO Designer on Eclipse, when you right clicked and selected 'Add resource', it sometimes showed 'None Available'.
1.2.0	1-9GEPCC DABS-334	After TIBCO Designer Add-in for TIBCO Business Studio was installed, a dialog prompting you to restart the machine was displayed.
1.2.0	1-9EISA7 DABS-275	TIBCO Business Studio took longer to open the Workspace if two or more TIBCO Designer projects were already open in the Workspace.
1.2.0	1-9H3MI7 DABS-363	Multiple versions of TIBCO Designer Add-in for TIBCO Business Studio on the same machine were not supported.
1.2.0	1-ACZZFM DABS-549	TIBCO Designer Add-in for TIBCO Business Studio did not work with pure Eclipse.  Note: You must have Pure Eclipse with WST/WTP package installed.

Closed in Release	Change Request ID	Summary
1.2.0	1-9QRU27 DABS-427	<p>TIBCO Designer Add-in for TIBCO Business Studio 1.1.0 did not work with TIBCO Business Studio in the following installation scenario:</p> <ul style="list-style-type: none"> <li>Install TIBCO Business Studio 2.2/3.1 + TIBCO Designer Add-in for TIBCO Business Studio 1.1.0 on two different TIBCO-HOMES – TIBCO-HOME1 and TIBCO-HOME2.</li> <li>Uninstall TIBCO Designer Add-in for TIBCO Business Studio from TIBCO-HOME1.</li> </ul> <p>TIBCO Designer Add-in for TIBCO Business Studio was uninstalled from TIBCO-HOME1. TIBCO Designer Add-in for TIBCO Business Studio did not work on TIBCO-HOME2 even though the plug-ins were available in TIBCO-HOME2.</p>
1.2.0	1-9DP9PF DABS-228	<p>After launching TIBCO Business Studio, the following error message was seen in the .metadata log file:</p> <pre>java.lang.Exception: Generated exception</pre>
1.1.1	1-9RXUI5 DABS-435	<p>When the <b>Validate project for deployment</b> and <b>Validate resource</b> buttons were used, sometimes, a Null Pointer exception was thrown in the TIBCO Designer Console and validations did not happen.</p>
1.1.1	1-9Q5XWS DABS-421	<p>When an activity existed in a process that used a mapper, the <b>Statement &gt; Insert Model Group for Content</b> option did not work. A Class Cast Exception was thrown in the console.</p> <p>The fix is available in the TIBCO ActiveMatrix BusinessWorks 5.7.2 release.</p>
1.1.1	1-9HPFPF DABS-386	<p>When the contents of the defaultVars folder which consists of global variables were modified directly on the disk, the changes were not reflected in the Global Variables perspective.</p>
1.1.1	1-9HNCXW BW-9112	<p>Occasionally, while running an ActiveMatrix SOA project containing a BusinessWorks component in the ActiveMatrix Debugger, TIBCO Business Studio did not respond and showed either 'Namespace Cache', 'Saving Project', or 'Packaging Service Assembly' pop-ups.</p> <p>The fix is available in TIBCO ActiveMatrix BusinessWorks 5.7.2 release.</p>

Closed in Release	Change Request ID	Summary
1.1.1	1-9GPRW9 DABS-348	When a process definition was opened in the Editor View, you could not double-click to switch from the TIBCO Designer perspective to Modeling.
1.1.1	1-9GJZGL DABS-342	While associating an empty archive file to a BusinessWorks component, if the Process Archive was not present in the archive, the related services and processes were not added to the EAR file.
1.1.1	1-9G0ENB DABS-324	The TIBCO Designer > Tester > Start menu option was disabled after a BusinessWorks project was run and stopped in the workspace once.
1.1.1	1-9FA5K7 DABS-315	<p>(TIBCO ActiveMatrix Adapter for SAP only) Errors were generated when connecting to the SAP system if the required libraries were not present in the c:\WINDOWS directory. The values specified in the .tra file were ignored.</p> <p>To fix this, update the system environment variable PATH to include the location of the libraries. After the adapter has been installed, the .tra file contains the location of the required libraries.</p>
1.1.1	1-9F3T3S DABS-307	When the Tester was started using the <b>Run</b> button on the toolbar, the Tester listed only the processes and did not list the services generated with the service activity.
1.1.1	1-9CF5DH DABS-206	<p>A TIBCO iProcess Insight project could not be launched from TIBCO <b>Designer &gt; Tools &gt; Insight Wizard</b>. A <code>NoClassDefFoundError</code> exception was thrown.</p> <p>To fix this, update the system environment variable PATH to include the location of the libraries. After the adapter has been installed, the .tra file contains the location of the required libraries.</p>
1.1.1	1-92AG6N DABS-68	<p>In a newly created workspace, when a project was created or imported, the Palette's View was not updated. The Palette's View displayed the following message:</p> <p>The current resource has no associated palettes message.</p>
1.1.1	1-924V87 DABS-41	The <b>Add Resource</b> menu item was missing from the TIBCO Designer > Resources menu in TIBCO Designer in Eclipse.

Closed in Release	Change Request ID	Summary
1.1.0	1-91SDVN DABS-27	When you switched between the options listed in the TIBCO <b>Designer &gt; View</b> menu, the checkmark indicating the current selection was not updated. The previous and the current options were both shown as selected.
1.1.0	1-929LTQ DABS-66	(TIBCO ActiveMatrix Adapter for SAP only) An Error during Save message was thrown when creating a new adapter configuration or when downloading an IDoc/ RFC.
1.1.0	1-97HQBB DABS-172	Services could not be copied across adapter instances in a project without closing and reopening the project.
1.1.0	1-97KCMO DABS-174	When projects were opened and closed multiple times and if you right-clicked to open a process definition in the project, TIBCO Business Studio froze sometimes.
1.1.0	1-9E6JOP DABS-245	(TIBCO ActiveMatrix Adapter for Tuxedo only) When saving a TIBCO Designer project, at times an "Error during save" message was displayed.
1.1.0	1-9E6JXJ	A warning pop-up was thrown when you dragged and dropped a TIBCO ActiveMatrix Adapter for Tuxedo Configuration from the Palette view onto the Editor view.
1.1.0	1-9EAA8B DABS-261	When you clicked on a resource in the Project Explorer view and selected right-click -> <b>Delete</b> , the resource occasionally was not deleted.
1.1.0	1-9EBU61 DABS-262	The name of the Validate Project pop-up window did not match the name of the project being validated.
1.1.0	1-9ECCSK DABS-267	Clicking on <b>Go to reference resource</b> for the Custom AESchema Reference in Adapter activities opened the resource in the Editor View but did not update the selection of the resource in the Project Explorer View (project tree).
1.1.0	1-9F00M7 DABS-299	When deleting services or references by selecting the option to delete information from the BusinessWorks project, the service or partner information continued to be visible even though it was deleted from the file.

Closed in Release	Change Request ID	Summary
1.1.0	1-9F39Z1 DABS-306	The right-click Copy and Paste options for a resource selected in the Project Explorer view did not work as expected.
1.1.0	1-9F79MJ DABS-311	The <b>Add Partner</b> button on the References tab failed to add a partner/reference to a process if the partner/reference did not have a namespace already defined.
1.1.0	1-9GGPY6 DABS-338	When a service was added to a BusinessWorks component for a WSDL with a Fault schema, the generated implementation process did not have the corresponding error schemas. As a result, errors during deployment were observed.
1.1.0	1-9GI2UV DABS-339	(TIBCO ActiveMatrix Adapter for SAP only) The Publisher resource added to a project was lost if you navigated to other resources without saving the project first.
1.1.0	1-9GVNDJ DABS-353	After switching from <i>project1</i> to <i>project2</i> , double-clicking on a resource in <i>project2</i> did not update the Configuration view.
1.1.0	1-9HCDRN DABS-369	The resource icons supported by TIBCO Designer Add-in for Business Studio were not available in the Project Tree if TIBCO Designer Add-in for Business Studio was installed on an existing installation of TIBCO Business Studio 2.2.
1.1.0	1-9HIZW6 DABS-382	If you click the Archive Name link in the Implementation tab after associating the BusinessWorks component with a TIBCO Designer Project, an SWTException was thrown if the associated TIBCO Designer Project was not saved.
1.1.0	1-9HNDUM DABS-385	When renaming a WSDL tied to a service agent in the TIBCO Designer project, the 'Available services for Expose' list on ActiveMatrix BusinessWorks component was not refreshed with the updated WSDL information and results in the service agent not being exposed on the ActiveMatrix BusinessWorks component.
1.1.0	1-9Q5SZR DABS-420	While creating a new TIBCO Designer project using TIBCO Business Studio 3.1, a ClassCastException was thrown and Business Studio hung. This was observed with TIBCO Runtime Agent and TIBCO Designer releases 5.6.0 and has been fixed in TIBCO Runtime Agent release 5.6.1. You must install TIBCO Runtime Agent 5.6.1 to get this fix.

## Known Issues

---

The table in this section lists known issues in this release.

Defect #	Summary/Workaround
DABS-719	<p><b>Summary</b> TIBCO Designer Add-in for TIBCO Business Studio does not support special folders and any functionality that comes with it.</p> <p><b>Workaround</b> None.</p>
DABS-781	<p><b>Summary</b> After making a change in the TIBCO Designer project when an attempt is made to close the TIBCO Business Studio without saving the project using random steps, the TIBCO Business Studio does not exit.</p> <p><b>Workaround</b> If Unsaved Projects dialog is the last dialog before closing TIBCO Business Studio, avoid using the Cancel option.</p>
DABS-784	<p><b>Summary</b> Although project deletion for open projects is not supported for TIBCO Designer Add-in for TIBCO Business Studio projects, you can delete the open projects if they are selected with non-TIBCO Designer Add-in for TIBCO Business Studio projects and can be deleted using the 'Right-click' context menu.</p> <p><b>Workaround</b> Manually check whether the projects selected in the list are closed.</p>
DABS-818	<p><b>Summary</b> TIBCO Business Studio does not work for the first time on fresh installation for TIBCO Designer Add-in for TIBCO Business Studio, when TIBCO Designer Add-in for TIBCO Business Studio and TIBCO Business Studio are not installed in the same home.</p> <p><b>Workaround</b> Close and reopen TIBCO Business Studio. All Designer Perspective and TIBCO Designer Projects are listed at the respective places.</p>
DABS-823	<p><b>Summary</b> "Validate Project" window sometimes opens behind the main TIBCO Business Studio screen.</p> <p><b>Workaround</b> None.</p>
DABS-537	<p><b>Summary</b> Null pointer exception is encountered in console logs on double-clicking on a WSDL in TIBCO Designer Add-in for TIBCO Business Studio project. No functionality issue is observed.</p> <p><b>Workaround</b> None.</p>

Defect #	Summary/Workaround (Cont'd)
1-AJ4QF7 DABS-594	<p><b>Summary</b> When using the Tester from the Debugger perspective, occasionally 'Engine not started' error is encountered.</p> <p><b>Workaround</b> Stop the Tester engine and re-run the processes.</p>
1-AFAM95 DABS-574	<p><b>Summary</b> If the Tester engine is not stopped after running a process and you attempt to import and run another process at the same time, you will not be able to run processes from the Debugger perspective as all the buttons in the Tester view and <b>Designer-&gt;tools-&gt;Tester</b> will be disabled.</p> <p>This does not occur if you use the Run/Debug... Launch configurations to use Tester.</p> <p><b>Workaround</b> Stop the engine when moving across projects OR always use Run/Debug... Launch configurations.</p>
1-AFQAVJ DABS-576	<p><b>Summary</b> From the Palette view, right click on Palette -&gt; Show Palette in New Window. This shows the palette in a new window. However, on closing the new window, the original Palette view becomes inactive.</p> <p><b>Workaround</b> Close the existing view and reopen it again using Window -&gt; Show View -&gt; Palettes.</p>
1-AGEF0T DABS-577	<p><b>Summary</b> DABS Main View does not get updated when a user creates a new TIBCO Designer project, imports multiple resources and performs the Sync operation after each such import.</p> <p><b>Workaround</b> Clicking on any other resource and coming back will update DABS Main View.</p>
1-AAJ9EZ DABS-529	<p><b>Summary</b> If the tester engine is not stopped and the user tries to close the running project, then while running some other project the buttons in the Tester View are seen as disabled. Also all options from Designer -&gt; Tools -&gt;Tester are disabled.</p> <p>This does not occur if you use the Run/Debug.. launch configurations to use Tester.</p> <p><b>Workaround</b> Stop the engine when moving across projects OR always use Run/Debug... Launch configurations.</p>
1-A0FJPT DABS-451	<p><b>Summary</b> The project can not be deleted because the Delete option is disabled on <b>Right click -&gt; Project -&gt; Delete</b> in the Project Explorer as well as from the menu items.</p> <p><b>Workaround</b> Close the project and then delete it.</p>

Defect #	Summary/Workaround (Cont'd)
1-A9XITR DABS-521	<p><b>Summary</b> Closing all perspectives and opening them again causes UI issues in TIBCO Designer Add-in for TIBCO Business Studio.</p> <p><b>Workaround</b> None</p>
1-A1AZYV DABS-464	<p><b>Summary</b> The iProcess Connection activity for the TIBCO iProcess Technology Plug-in fails with the following error:</p> <p>BW-iPROCESS-000062 Connection Test Failed. Unable to establish connection to the iProcess Engine's Database. SQLException occurred [SQLErrorCode=4060, SQLState=08001]. java.sql.SQLException: [tibcosoftwareinc][SQLServer JDBC Driver][SQLServer]Cannot open database "&lt;name&gt;" requested by the login. The login failed.</p> <p><b>Workaround</b> None.</p>
1-9GD4QU DABS-333	<p><b>Summary</b> When the Service Implementation process of a BusinessWorks project is renamed more than once, the older names of the process are displayed in the Implementation tab of the TIBCO ActiveMatrix BusinessWorks Service Engine component.</p> <p><b>Workaround</b> None.</p>
1-9GBEUB DABS-332	<p><b>Summary</b> Errors are generated if a folder of a previously imported project is renamed and imported once again into the workspace using the <b>File &gt; Import &gt; General &gt; Existing projects into workspace</b> option.</p> <p><b>Workaround</b> None.</p>
1-9EW5QW, 1-9FOJSV DABS-291 DABS-318	<p><b>Summary</b> TIBCO Designer Add-in for TIBCO Business Studio design time is not supported on Linux.</p> <p><b>Workaround</b> None.</p>
1-9EFAMG DABS-272	<p><b>Summary</b> The <b>Find References In</b> and <b>Find References To</b> windows sometimes open behind the main TIBCO Business Studio screen.</p> <p><b>Workaround</b> None.</p>
1-9DUGFN DABS-238	<p><b>Summary</b> The <b>Save As</b> option to save the current TIBCO Designer project with a different name is not supported.</p> <p><b>Workaround</b> Use the <b>Eclipse &gt; Export</b> feature.</p>

Defect #	Summary/Workaround (Cont'd)
1-9DUGB7 DABS-236	<p><b>Summary</b> JMS Test Connection dialog box containing the error messages opens behind the TIBCO Business Studio screen.</p> <p><b>Workaround</b> None.</p>
1-9DSFI9 DABS-231	<p><b>Summary</b> TIBCO Adapter for COM is not supported by TIBCO Designer Add-in for TIBCO Business Studio.</p> <p><b>Workaround</b> None.</p>
1-9CNKQ1 DABS-214	<p><b>Summary</b> TIBCO Form Builder is not supported by TIBCO Designer Add-in for TIBCO Business Studio.</p> <p><b>Workaround</b> None.</p>
1-9CNF9U DABS-213	<p><b>Summary</b> TIBCO BusinessWorks WorkFlow is not supported by TIBCO Designer Add-in for TIBCO Business Studio.</p> <p><b>Workaround</b> None.</p>
1-9CIQGF DABS-211	<p><b>Summary</b> TIBCO Business Factor is not supported by TIBCO Designer Add-in for TIBCO Business Studio.</p> <p><b>Workaround</b> None.</p>
1-9CEEE0 DABS-204	<p><b>Summary</b> TIBCO Business Events is not supported by TIBCO Designer Add-in for TIBCO Business Studio. TIBCO Business Studio freezes on startup while loading "com.tibco.mtg.plugin" if TIBCO Business Events is installed in the environment.</p> <p><b>Workaround</b> None.</p>
1-95XC9D DABS-156	<p><b>Summary</b> When you select an error in the <b>Validate Project</b> window and click <b>Go to Resource</b> button, the related activity gets highlighted in the Editor view. However, the <b>Validate Project</b> window continues to be in the foreground and TIBCO Business Studio remains in the background.</p> <p><b>Workaround</b> None.</p>
1-945ND7 DABS-123	<p><b>Summary</b> The TIBCO Designer menu option is not available once the <b>Preferences -&gt; View</b> option is selected.</p> <p><b>Workaround</b> None. Do not select the <b>Preferences -&gt; View</b> option.</p>
1-924RD1 DABS-36	<p><b>Summary</b> The TIBCO Designer Revision Control System (RCS) feature is unavailable in TIBCO Designer Add-in for TIBCO Business Studio.</p> <p><b>Workaround</b> None.</p>

Defect #	Summary/Workaround (Cont'd)
1-921ALN DABS-34	<b>Summary</b> In the Process Editor and Configuration View, tool tips are not shown for the Help, View as Image, Expand, and Minimize icons. <b>Workaround</b> Click on the button to display the associated tool tip.
1-91SDKF, 1-924VCG DABS-23 DABS-43	<b>Summary</b> Keyboard shortcuts do not work as expected. <b>Workaround</b> None.
