New features

This release was updated to ensure compatibility with TIBCO EBX® version 5.9.26.

Changes in Functionality

This release contains no changes in functionality.

Changes to third-party libraries

This release contains no changes to third-party libraries.

Closed issues

This release contains no closed issues.

Known issues

This release contains the following known issues:

- Search is executed on fields of string, text, date and number types only.
- Search with computed values or inherited fields might lead to performance issues.
- The use of keywords that contain only special characters is not supported.
