New features.....	5
Changes in Functionality.....	5
Changes in third-party libraries.....	5
Closed Issues.....	5
Known Issues.....	5

## New features

This release was updated to ensure compatibility with TIBCO EBX® version 6.2.0 and the Add-ons Bundle version 6.2.0.

## Changes in Functionality

This release includes no updated functionality.

## Changes in third-party libraries

This release contains the following third-party library updates:

- Angular was upgraded to version 15.
- Spring Web MVC was updated to version 6.1.8.

## Closed Issues

This release includes no closed issues.

## Known Issues

This release contains the following known issues:

- Dashboard export: There are several differences in styles between the charts on browsers and those in the exported files.
- Flat data report: Dynamic labels and descriptions are not applied when directly accessing the table in the reporting datasets.
- Hierarchy view by data models on the **Indicator on D.E.C.** table: Orders of data elements may not be the same as in the data models.
- The date format used in the calendar and on chart axis annotations behaves as follows:
  - English: MM/dd/yyyy
  - French: dd/MM/yyyy
  - All other locales will follow English.
