New Features

The following features have been added in this release of TIBCO Flogo® Connector for Apache Pulsar.

Seek feature

You can reset the subscription associated with the consumer to a specific message id or publish timestamp. The following options are available:

- **Seek By MessageID:** Seeking by Message ID in Pulsar allows you to start consuming messages from a specific message with the Ledger ID and Entry ID.
- **Seek By Timestamp:** Seeking by timestamp in Pulsar allows you to start consuming messages from a specific point in time.

SendTimeout

You can set the SendTimeout (in milliseconds) to specify how long to wait for the server to acknowledge the message. If the server doesn't respond within this time, the operation will fail with a SendTimeout error. To disable this feature, use -1. The default value is -1.

Geo Replication

Geo-replication allows data and configuration to be replicated to a secondary region. Select the Geo Replication State checkbox to enable the geo replication feature.

Retry on Error

Using the Retry On Error, you can set the number of times the flow tries to run the activity on encountering an error that can be fixed on retrial.

Changes in Platform Support

Supported platforms are not affected in this release.

Changes in Functionality

No functionality changes have been made in this release of TIBCO Flogo® Connector for Apache Pulsar.

Deprecated Features

No features have been deprecated in this release of TIBCO Flogo® Connector for Apache Pulsar.

Removed Features

No features have been removed in this release of TIBCO Flogo® Connector for Apache Pulsar.

Migration and Compatibility

There are no migration procedures or compatibility issues in this release of TIBCO Flogo® Connector for Apache Pulsar.

Closed Issues

No issues have been closed in this release of TIBCO Flogo® Connector for Apache Pulsar.

Known Issues

The following issue exists in this release of TIBCO Flogo® Connector for Apache Pulsar

Key	Summary
FGPUL-389	<p>Summary: Batching does not work as expected, when geo-replication is set to true.</p> <p>Workaround: None.</p>

TIBCO Documentation and Support Services

For information about this product, you can read the documentation, contact TIBCO Support, and join TIBCO Community.

How to Access TIBCO Documentation

Documentation for TIBCO products is available on the [Product Documentation website](#), mainly in HTML and PDF formats.

The [Product Documentation website](#) is updated frequently and is more current than any other documentation included with the product.

Product-Specific Documentation

The documentation for this product is available on the [TIBCO Flogo® Connector for Apache Pulsar Product Documentation](#) page.

How to Contact Support for TIBCO Products

You can contact the Support team in the following ways:

- To access the Support Knowledge Base and getting personalized content about products you are interested in, visit our [product Support website](#).
- To create a Support case, you must have a valid maintenance or support contract with a Cloud Software Group entity. You also need a username and password to log in to the [product Support website](#). If you do not have a username, you can request one by clicking **Register** on the website.

How to Join TIBCO Community

TIBCO Community is the official channel for TIBCO customers, partners, and employee subject matter experts to share and access their collective experience. TIBCO Community offers access to Q&A forums, product wikis, and best practices. It also offers access to extensions, adapters, solution accelerators, and tools that extend and enable customers to gain full value from TIBCO products. In addition, users can submit and vote on feature

requests from within the [TIBCO Ideas Portal](#). For a free registration, go to [TIBCO Community](#).
