New Features

No new features have been added in this release of TIBCO® Managed File Transfer Platform Server for UNIX.

Changes in Platform Support

Supported platforms are not affected in this release. For a complete list of supported platforms, see the [Readme](#) file.

Changes in Functionality

No functionality changes have been made in this release of TIBCO® Managed File Transfer Platform Server for UNIX.

Deprecated and Removed Features

No features have been deprecated or removed as of this release of TIBCO® Managed File Transfer Platform Server for UNIX.

Migration and Compatibility

For migration procedures and compatibility issues in version 8.1.2 of TIBCO® Managed File Transfer Platform Server for UNIX, see the "Upgrading TIBCO® Managed File Transfer Platform Server for UNIX" section in *TIBCO® Managed File Transfer Platform Server for UNIX Installation*.

Closed Issues

The following issues have been fixed in this release of TIBCO® Managed File Transfer Platform Server for UNIX.

This release addresses CVE-2024-4407 disclosed in a security advisory.

Key	Description
PSU-1128	When the config.txt parameter "RunCyberRespAsNonRoot" is set to "Y", CyberResp can be started as a root .

Known Issues

The following issues exist in this release of TIBCO® Managed File Transfer Platform Server for UNIX.

Key	Summary
PSU-398	<p>Summary: During send transfers to a distribution list, if you specify any of these parameters on the command line: encryption, SSL, port and compression, they cannot override the values defined for the nodes which are included in the distribution list.</p> <p>Workaround: Configure the necessary encryption, SSL, port and compression in the node definition when sending a file to a distribution list.</p>
PSU-248	<p>Summary: When you run the <code>fusing</code> command against TIBCO® Managed File Transfer Platform Server for Windows with earlier versions, if the license key of the Windows server has expired, a wrong message indicating a network error is displayed.</p> <p>Workaround: None.</p>

TIBCO Documentation and Support Services

How to Access TIBCO Documentation

Documentation for TIBCO products is available on the [Product Documentation website](#), mainly in HTML and PDF formats.

The [Product Documentation website](#) is updated frequently and is more current than any other documentation included with the product.

Product-Specific Documentation

The documentation for this product is available on the [TIBCO® Managed File Transfer Platform Server for UNIX Documentation](#) page.

How to Contact Support for TIBCO Products

You can contact the Support team in the following ways:

- To access the Support Knowledge Base and getting personalized content about products you are interested in, visit our [product Support website](#).
- To create a Support case, you must have a valid maintenance or support contract with a Cloud Software Group entity. You also need a username and password to log in to the [product Support website](#). If you do not have a username, you can request one by clicking **Register** on the website.

How to Join TIBCO Community

TIBCO Community is the official channel for TIBCO customers, partners, and employee subject matter experts to share and access their collective experience. TIBCO Community offers access to Q&A forums, product wikis, and best practices. It also offers access to extensions, adapters, solution accelerators, and tools that extend and enable customers to gain full value from TIBCO products. In addition, users can submit and vote on feature requests from within the [TIBCO Ideas Portal](#). For a free registration, go to [TIBCO Community](#).
