Product Editions

TIBCO Messaging software is available in a community edition and an enterprise edition.

TIBCO Messaging - Community Edition is ideal for getting started with TIBCO Messaging, for implementing application projects (including proof of concept efforts), for testing, and for deploying applications in a production environment. Although the community license limits the number of production processes, you can easily upgrade to the enterprise edition as your use of TIBCO Messaging expands.

The community edition is available free of charge, with the following limitations and exclusions:

*   Users may run up to 1000 web/IoT/mobile instances in a production environment.
*   Users do not have access to TIBCO Support, but you can use TIBCO Community as a resource (https://community.tibco.com).

TIBCO Messaging - Enterprise Edition is ideal for all application development projects, and for deploying and managing applications in an enterprise production environment. It includes all features presented in this documentation set, as well as access to TIBCO Support.
