TIBCO Spotfire Mobile documentation and support services

How to Access TIBCO Documentation

Documentation for TIBCO products is available on the TIBCO Product Documentation website, mainly in HTML and PDF formats.

The TIBCO Product Documentation website is updated frequently and is more current than any other documentation included with the product. To access the latest documentation, visit <https://docs.tibco.com>.

Product-specific documentation

The following documents for this product can be found in the [TIBCO Documentation Library](#):

- *TIBCO Spotfire® Deployment Kit for Apple iOS* (HTML version)
- *TIBCO Spotfire® Deployment Kit for Apple iOS* (PDF version)
- *TIBCO Spotfire® Deployment Kit for Apple iOS Release Notes*

Documentation for the app can be found at [TIBCO Spotfire® for Apple iOS](#).

System Requirements for Spotfire Products

For information about the system requirements for Spotfire products, visit <http://spotfi.re/sr>.

How to Contact TIBCO Support

You can contact TIBCO Support in the following ways:

- For an overview of TIBCO Support, visit <http://www.tibco.com/services/support>.
- For accessing the Support Knowledge Base and getting personalized content about products you are interested in, visit the TIBCO Support portal at <https://support.tibco.com>.
- For creating a Support case, you must have a valid maintenance or support contract with TIBCO. You also need a user name and password to log in to <https://support.tibco.com>. If you do not have a user name, you can request one by clicking Register on the website.

For quick access to TIBCO Spotfire content, see <https://community.tibco.com/products/spotfire>.

TIBCO Spotfire® Deployment Kit for Apple iOS Release Notes

These release notes are for Spotfire Deployment Kit for Apple iOS version 2.10.0. They are provided to inform you of new features, known issues, and issues from previous releases that have been closed.

Spotfire Deployment Kit for Apple iOS provides the tools and resources to develop a customized app for displaying Spotfire analytics on iOS mobile devices.

New Features

These features have been added to version 2.10.0 of Spotfire Deployment Kit for Apple iOS.

- The deployment kit now supports using WKWebView. (Note that support for using UIWebView has been removed.)
- The app developed with the Deployment Kit now avoids transmitting users' personally identifiable information. See [Changes in Functionality](#) on page 6 for more information.

Deprecated and Removed Features

Version 2.10.0 of Spotfire Deployment Kit for Apple iOS is no longer tested with versions of Xcode prior to version 9.4, or versions of iOS prior to version 10.

Migration and Compatibility

Version 2.10.0 of TIBCO Spotfire® Deployment Kit for Apple iOS is compatible with, and was built and tested with, Xcode version 9.4 on an Apple development system using MacOS 10.13.

- Version 2.10.0 of the Spotfire Deployment Kit for Apple iOS recommends Xcode version 9.4.
- Version 2.10.0 of the Spotfire Deployment Kit for Apple iOS targets iOS version 10 and higher. Support for targeting earlier versions of iOS has been removed.

If the app is used in iOS version 11, you must add the entitlement for keychain sharing for the app in Xcode. See *TIBCO Spotfire® Deployment Kit for Apple iOS* help for instructions.

Compatibility

- TIBCO Spotfire® Server and Spotfire® Web Player versions prior to 7.5 are no longer supported by apps built by this deployment kit, due to the change to use modern WKWebView instead of UIWebView.

Changes in Functionality

Version 2.10.0 of Spotfire Deployment Kit for Apple iOS contains these changes in functionality.

If customers enable Google Analytics tracking for the app, then the app now sends anonymized IP addresses instead of the full IP addresses for the user. This change was made to avoid transmitting users' personally identifiable information.

Closed Issues for Spotfire Deployment Kit for Apple iOS

The following issues are closed in the Spotfire Deployment Kit for Apple iOS version 2.10.0.

Key	Summary
SPADSDK-11	Updated the sample legal text for third party components AFNetworking 3.2.0 and Google Analytics 3.15. Also made it clearer that the deployment kit user should provide their own legal text.

Closed Issues for Spotfire for Apple iOS app

The table lists closed issues in version 2.10.0 of the Spotfire for Apple iOS app.

Key	Summary
SPAD-1894	The app now uses the latest web view control from Apple to render analyses.
SPAD-2087	When you used the app on an iPhone X, the navigation bar would shift in position if you rotated the device while the sidebar menu was open. The navigation bar now maintains its correct height for the rotated position.
SPAD-2095	Prepared PDF reports would immediately be closed after being exported. Now they stay on screen so you can view and share the reports.
SPAD-2120	When you connected to the app using an OAuth authenticated server, you could experience a delay with no indication of progress. A status indicator is now displayed.
SPAD-2139	A change in the previous release caused iCloud sync to fail. This issue has been fixed.

Known Issues

Version 2.10.0 of TIBCO Spotfire® Deployment Kit for Apple iOS contains no known issues.
