TIBCO Spotfire Automation Services Documentation and Support Service

How to Access TIBCO Documentation

Documentation for TIBCO products is available on the TIBCO Product Documentation website, mainly in HTML and PDF formats.

The TIBCO Product Documentation website is updated frequently and is more current than any other documentation included with the product. To access the latest documentation, visit <https://docs.tibco.com>.

Product-Specific Documentation

The following documents for this product can be found in the TIBCO Documentation Library for TIBCO Spotfire Automation Services:

- *TIBCO Spotfire® Automation Services User's Manual*
- *TIBCO Spotfire® Automation Services Release Notes*
- *TIBCO Spotfire® Automation Services API Reference*
- *TIBCO Spotfire® Automation Services License Agreement*

For information about installing and configuring, see TIBCO Spotfire® Server and Environment - Installation and Administration help, available at <https://docs.tibco.com>.

Release Version Support

Some release versions of TIBCO Spotfire products are designated as Long Term Supported (LTS) versions. LTS versions are typically supported for up to 36 months from release. Defect corrections will typically be delivered in a new release version and as hotfixes or service packs to one or more LTS versions. See also <https://docs.tibco.com/products/tibco-spotfire-general>.

How to Contact TIBCO Support

You can contact TIBCO Support in the following ways:

- For an overview of TIBCO Support, visit <http://www.tibco.com/services/support>.
- For accessing the Support Knowledge Base and getting personalized content about products you are interested in, visit the TIBCO Support portal at <https://support.tibco.com>.
- For creating a Support case, you must have a valid maintenance or support contract with TIBCO. You also need a user name and password to log in to <https://support.tibco.com>. If you do not have a user name, you can request one by clicking Register on the website.

System Requirements for Spotfire Products

For information about the system requirements for Spotfire products, visit <http://support.spotfire.com/sr.asp>.

How to Join TIBCO Community

TIBCO Community is the official channel for TIBCO customers, partners, and employee subject matter experts to share and access their collective experience. TIBCO Community offers access to Q&A forums, product wikis, and best practices. It also offers access to extensions, adapters, solution accelerators, and tools that extend and enable customers to gain full value from TIBCO products. In addition, users can submit and vote on feature requests from within the [TIBCO Ideas Portal](https://community.tibco.com). For a free registration, go to <https://community.tibco.com>.

For quick access to TIBCO Spotfire content, see <https://community.tibco.com/products/spotfire>.

TIBCO Spotfire Automation Services Release Notes

The Release Notes for this product version are provided to inform you of new features, known issues, and issues from previous releases that have been closed.

TIBCO Spotfire® Automation Services is a service of Spotfire® Server, and provides the means to run automated server jobs using Spotfire. Spotfire Automation Services provides a user interface tool, the Job Builder, which you can use to specify the jobs to be run, at intervals, on Spotfire Server.

These release notes provide change information for both the service and the Job Builder.

New Features

The following new features have been added to version 7.11 of TIBCO Spotfire® Automation Services.

OAuth2 support for Client Job Sender

The Client Job Sender tool now supports OAuth2 authentication.

There were major architectural changes introduced in version 7.5.0. If you are upgrading from an earlier version than 7.5.0, refer to the Spotfire Automation Services 7.5.0 Release Notes for more information.

Changes in functionality

There are no changes in functionality in version 7.11 of TIBCO Spotfire® Automation Services .

There were major architectural changes introduced in version 7.5.0. If you are upgrading from an earlier version than 7.5.0, refer to the Spotfire Automation Services 7.5.0 Release Notes for more information.

Deprecated and removed features

The following table lists any features that have been deprecated or removed as of version 7.11 of Spotfire Automation Services.

There were major architectural changes introduced in version 7.5.0. If you are upgrading from an earlier version than 7.5.0, refer to the Spotfire Automation Services 7.5.0 Release Notes for more information.

Affected component	Description
Set Data Source Credential task	Automation jobs containing "Set Data Source Credentials" tasks using encryption to encrypt passwords will no longer work. The jobs must be reopened in the job builder and the tasks edited to use certificate encryption.

The deprecated tasks will be removed in the next release of Spotfire Automation Services.

Migration and compatibility

The following are instructions on how to migrate from a previous release to version 7.11 of Spotfire Automation Services.

For upgrading to version 7.11 of Spotfire Automation Services, see instructions in the Spotfire Server and Environment Installation and Administration help.

There were major architectural changes introduced in version 7.5.0. If you are upgrading from an earlier version than 7.5.0, refer to the Spotfire Automation Services 7.5.0 Release Notes for more information.

Compatibility

Version 7.11 of Spotfire Automation Services should be installed for compatibility with version 7.11 of TIBCO Spotfire®.

Closed issues

There are no closed issues to report in version 7.11 of TIBCO Spotfire Automation Services.

Known issues

There are no known issues to report in version 7.11 of TIBCO Spotfire Automation Services.
