Typographical Conventions

The following typographical conventions are used in this manual.

General Typographical Conventions

Convention	Use
<code>code font</code>	Code font identifies commands, code examples, filenames, pathnames, and output displayed in a command window. For example: Use <code>MyCommand</code> to start the foo process.
bold code font	Bold code font is used in the following ways: <ul style="list-style-type: none"> In procedures, to indicate what a user types. For example: Type admin. In large code samples, to indicate the parts of the sample that is of particular interest. In command syntax, to indicate the default parameter for a command. For example, if no parameter is specified, <code>MyCommand</code> is enabled: <code>MyCommand [enable disable]</code>
<i>italic font</i>	Italic font is used in the following ways: <ul style="list-style-type: none"> To indicate a document title. For example: See <i>Concepts</i>. To introduce new terms. For example: A portal page may contain several portlets. <i>Portlets</i> are mini-applications that run in a portal. To indicate a variable in a command or code syntax that you must replace. For example: <code>MyCommand PathName</code>
Key combinations	Key name separated by a plus sign indicate keys pressed simultaneously. For example: <code>Ctrl+C</code> . Key names separated by a comma and space indicate keys pressed one after the other. For example: <code>Esc , Ctrl+Q</code> .
	The note icon indicates information that is of special interest or importance, for example, an additional action required only in certain circumstances.
	The tip icon indicates an idea that could be useful, for example, a way to apply the information provided in the current section to achieve a specific result.
	The warning icon indicates the potential for a damaging situation, for example, data loss or corruption if certain steps are taken or not taken.

Connecting with TIBCO Resources

How to Join TIBCOCommunity

TIBCOCommunity is an online destination for TIBCO customers, partners, and resident experts, a place to share and access the collective experience of the TIBCO community. TIBCOCommunity offers forums, blogs, and access to a variety of resources. To register, go to [http:// www.tibcommunity.com](http://www.tibcommunity.com).

How to Access All TIBCO Documentation

After you join TIBCOCommunity, you can access the documentation for all supported product versions here:

[http:// docs.tibco.com/ TibcoDoc](http://docs.tibco.com/TibcoDoc)

How to Contact TIBCO Spotfire Support

For comments or problems with this manual or the software it addresses, please contact TIBCO Spotfire Support as follows.

- For an overview of TIBCO Support, and information about getting started with TIBCO Support, visit this site:

[http:// www.tibco.com/ services/ support](http://www.tibco.com/services/support)

- If you already have a valid maintenance or support contract, visit this site:

[https:// support.tibco.com](https://support.tibco.com)

Entry to this site requires a user name and password. If you do not have a user name, you can request one.

Release Notes

Check the TIBCO Product Support web site at [https:// support.tibco.com](https://support.tibco.com) for product information that was not available at release time. Entry to this site requires a username and password. If you do not have a username, you can request one. You must have a valid maintenance or support contract to use this site.

See the [TIBCO® Spotfire® System Requirements](#) web page for a detailed description of the system requirements for TIBCO® Spotfire® 4.5.0.

Topics

- [New Features, see page 2](#)
- [Changes in Functionality, see page 3](#)
- [Deprecated and Removed Features, see page 4](#)
- [Migration and Compatibility, see page 5](#)
- [Closed Issues, see page 6](#)
- [Known Issues, see page 7](#)

New Features

This section lists features added since the last release of this product.

Release 4.5.0

The following are new features in this release.

Support for Chemaxon Marvin as a Structure Editor

- MarvinSketch can now be used as input to substructure searches.

Support for Logging

- TIBCO Spotfire Lead Discovery features are now included in the standard Spotfire logging.

Changes in Functionality

This section lists changes in functionality since the last release of this product.

Release 4.5.0

There are no changes in functionality in this release.

Deprecated and Removed Features

Release 4.5.0

No features are deprecated or removed in this release.

Migration and Compatibility

This section explains how to migrate from a previous release to this release.

Release 4.5.0

Installation

1. Follow the instructions in the installation manual to install TIBCO® Spotfire® Lead Discovery 4.5.0.

Note: If you are upgrading from a previous installation, note that that Similarity Search Information Links needs an additional property set. See the installation manual, section 3.5.3 (from step 25) for further information.

Closed Issues

There are no closed issues to report in this release.

Known Issues

The table in this section lists known issues in this release.

Key	Summary/Workaround
	<p>Summary If using an information link requiring database login as a virtual column data provider, you will not be able to get any structure data because of a limitation in Lead Discovery.</p> <p>Workaround One workaround for Spotfire Professional (not Web Player) is to manually open the information link and provide credentials. The information link will now work for the duration of the authentication cache time setting as specified by your Spotfire Server administrator. You will need to perform this step periodically.</p>
